

Tablet/PC-MainFrame

The screenshot displays the Jetstream Skiservice Adminpanel. At the top, a title bar reads "Jetstream Skiservice Adminpanel". Below it is a navigation menu with "Bearbeiten", "Einstellungen", and "Hilfe". A secondary bar contains icons for "Editieren", "Löschen", and "Hinzufügen", along with a search field labeled "Auftrags-Nr." and a "Suchen" button. The main area is divided into a left sidebar and a right content pane. The sidebar lists three categories: "Alle Aufträge", "Offene Aufträge", and "In Arbeit", each with a folder icon and a dropdown arrow. Under "Offene Aufträge" and "In Arbeit", there are sub-items: "Kleiner Service", "Grosser Service", "Rennski Service", "Bindungen montieren und einstellen", "Fell zuschneiden", and "Heisswachsen". At the bottom of the sidebar is "abgeschlossene Aufträge" with a folder icon and a right-pointing triangle. The right pane is currently empty.

The diagram illustrates three different states of a menu bar, likely representing a user interface for a software application. Each menu bar contains three items: 'Bearbeiten', 'Einstellungen', and 'Hilfe'. The first menu bar shows the 'Bearbeiten' menu open with options 'Editieren', 'Löschen', and 'Hinzufügen'. The second menu bar shows the 'Hilfe' menu open with options 'GitHub-Repository (Updates)' and 'Über Ski Service WPF'. The third menu bar shows the 'Einstellungen' menu open with options 'Sprache einstellen' and 'Logout'.
